NURKHAN MASIMZADA

Software Developer

Summary

Passionate and skilled Junior Developer with experience in front-end and back-end development, as well as mobile application development. I am dedicated to creating user- friendly and visually appealing websites and applications. With flexible working hours and a proactive approach, I am always ready to meet customer expectations. As an intern in the Code Academy, I gained practical experience and honed my digital skills in various programming languages and frameworks such as JavaScript, CSS, React.js, C#, and Flutter. With a strong foundation in design patterns and ASP.Net Core, I am able to deliver efficient and robust solutions. I am eager to contribute my expertise to a dynamic and innovative team, while continuously developing my technical skills

Experience

Back-end Development Instructor
Mar 2023 - Jul 2023

Baku IT Academy | Baku

Baku IT Academy is a programming learning course, and I was teaching children Back-end Development as a Back-end Programming Instructor there. As a Back-end Instructor, my responsibilities included...

- Preparing teaching materials
- Planning, preparing and researching lessons
- Teaching Students to use various computer languages (such as C#, ASP.Net Core) and specialist applications
- Developing and delivering programmes of learning activities
- Making Quiz Tests for students' examination

Mentor
Aug 2022 - Apr 2023

Code Academy | Baku

Code Academy is a programming learning course, and I have actively participated as a mentor there. As a mentor, my responsibilities include...

- Lesson Preparation: The assistant instructor is responsible for preparing lessons in accordance with the course content and curriculum. This includes creating lecture notes and materials, as well as preparing presentations and examples for students.
- Classroom Management: During class, the assistant instructor is responsible for helping students, answering questions, and maintaining overall class order.
- Student Assistance: Supporting students' learning processes, answering their questions, and helping them overcome learning difficulties are important responsibilities.
- Advising: Arranging individual meetings with students and providing guidance on career or learning goals can also be part of the workload.
- Progress Monitoring: Tracking students' progress, identifying deficiencies, and providing additional support when necessary.
- Research of Educational Materials: Researching new technologies and educational materials to keep the course content up to date and integrating this knowledge into the course.
